

## B 325 Pan Mixer

### beba advantages

- Excellent power transmission
- Perfect for high-performance concrete or refractory material
- Low dumping height by vertical adjustment
- Calm mixing during accurate mixing movement by two-way bearing of the main shaft
- Very high torque for a powerful start to mixing
- Forklift carriage
- The mixer is freely accessible and makes easy, comfortable filling possible over the protection cover. The mixing process can be very well observed
- The protection cover is hinged and has a safety disconnection
- The removable hand drawbar over quick-locking mechanisms is accommodated in a connector at the container
- Extension cable with phase inverter (10 m)
- Air wheels over quick-locking mechanisms in front and in the back plug-on, when emptying e.g. a barrow can be crosswise stored
- The mixing tools are completely removable for easy cleaning (B 140 and B 325)
- Emptying by segment side-gate for a fast, clean and well-proportioned emptying of the mixing material
- CE-conform in accordance to European Union machine guidelines
